

These are the results from the **IIP RIASEC Markers**. Your scores for each of the 6 basic interest areas are below.

Realistic 20

Investigative 22

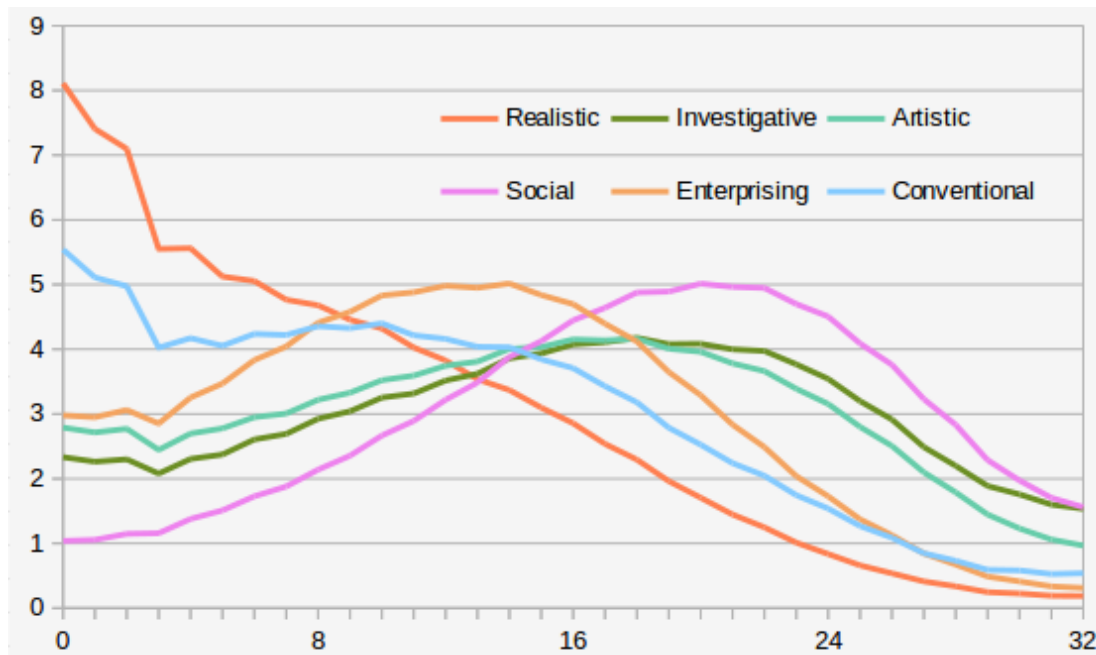

Artistic 21

Social 27

Enterprising 29

Conventional 18

Scores range from 0 to 32. This distribution of scores are below. This graph shows what percent of people received a specific score, for each of the six scales.

You can see that the people who have taken this test are somewhat biased towards S, and away from R and C.

Type

Your highest score was for the **Enterprising** occupational interest.

See the descriptions for all of the types [here](#).

Suitable careers

A persons top three interests areas are sometimes called their "Holland Code". This would make your code **ESI**. The United States Department of Labor Employment and Training Administration maintains a database of occupations sorted by Holland Code. The list of occupations for the ESI can be found at
